

PID controllers & indicators

Recorders & data management

Power controllers

Process control systems

Signal conditioning

Actuators & sensors

For Local Support & Service Contact:

Motion Industries

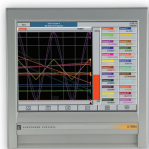

PID controllers & indicators

- > Single and multi loop controllers
- > Modbus®, Profibus®, DeviceNet®, Ethernet
- > Scrolling text messaging
- > OEM custom controllers

Process control systems

- > Advanced control systems
- > Redundant control capabilities
- > Integrated control and HMI products

Recorders & data management

- > Graphical and paper models
- > Touch screen
- > Secure data and remote viewing
- > Site licensed software

Signal conditioning & isolation

- > Wide range of conditioning and alarm units
- > High level signal isolation
- > Intrinsically safe & Class I Division 2 models
- > Calibrators

Power controllers

- > 10A to 4000A rating
- > Single and three phase products
- > Zero crossing and phase angle models
- > Digital communications

Actuators & sensors

- > Wide range of industrial actuators
- > Plastics sensors
- > Heavy duty sensors and thermowells
